

STATEMENT: The Great Lakes Water Authority to Perform Meter Replacement in the City of Inkster

The week of June 1, 2021 – June 7, 2021, the Great Lakes Water Authority (GLWA) will be performing a meter replacement at near the intersections of Michigan Avenue (US -12), west of Inkster Road.

When a routine work, such as a meter replacement is done, the water utility crew must open and close valves. Opening and closing valves may cause pressure changes or flow reversals in a water main near the areas specified. This may cause the dislodging or stirring up of rust debris that can build up over time and float freely during maintenance activities.

For information on what to do regarding rusty water in the home, please review the Rusty Water FAQ attached. If Inkster residents have questions regarding the FAQ or if they may be impacted, contact the Inkster Department of Public Services at 313-563-9774.
